ABOUT ME:

- I am a committed, consistent person who is always evolving, with the ability to adapt, learn quickly and work in multidisciplinary teams.
- I enjoy creating modern and functional applications, taking care of both the user experience and the scalability and maintainability of the code.
- If I had to highlight something about myself, it would be the way I treat others, always trying to leave a good impression on the people I interact with.

David Bellón Payer

WEB DEVELOPER

EXPERIENCE

FRONTEND DEVELOPER

Silice Tecnología y Servicios

Mar. 2025 - Jun. 2026

I mainly participated in the development of an institutional employment platform with a citizen portal and a company portal. My work focused mostly on the frontend using Angular, integrating features with a REST API built in PHP/Yii2.

Responsibilities and achievements:

- Developed a reusable error validation system in Angular, applicable across different views and useful for the team.
- Improved code maintainability by separating features and reducing mixed responsibilities.
- Detected and reported API issues, HTTP errors and inconsistencies between frontend and backend contracts.
- Updated the platform's visual appearance based on continuous client feedback.

EDUCATION

Higher Technician in Web Application Development

CPIFP Alan Turing PTA

Sep. 2024 - Jun. 2026

Specialization Course in AI and Big Data (600h)

CPIFP Alan Turing PTA + Accenture

Sep. 2026 - Present
